

ZIMBABWE & BOTSWANA

I just wanted to share my latest and greatest travel adventure—Zimbabwe and Botswana! I returned from a 10 day trip in April. These are two of the most fascinating countries. We were able to stay in some fantastic tented camps, dine on world class cuisine, and see amazing wildlife. A tented camp is a wonderful way to experience Southern Africa. You have all the luxuries of a hotel room but you also have privacy and the marvelous opportunity to hear all the nighttime animal activity.

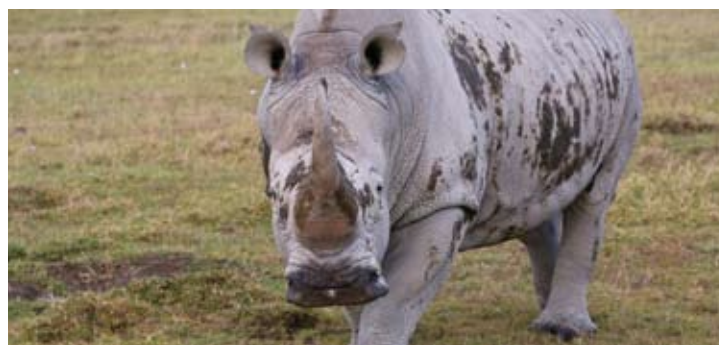

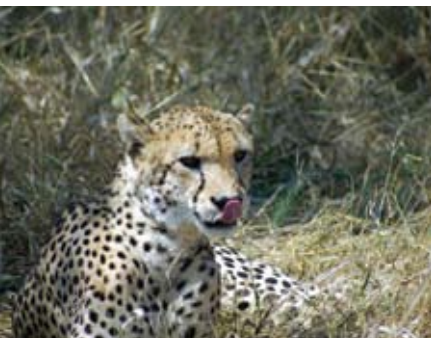

Our first few nights were spent at Victoria Falls Hotel in Victoria Falls. I had the opportunity to see the falls from Zimbabwe this time. What a magnificent sight! Everywhere you look there are double rainbows. We traveled and stayed in the Hwange National Park in Zimbabwe where we saw elephants, rare birds, lions, white rhinos, and a hyena that came right up to our camp and was close enough to touch.

In Botswana we were able to experience the magnificent Linyanti Game Reserve. Here we were able to see huge herds of elephants and Cape buffaloes, leopards, cheetahs, and the rare wild dog. Botswana is definitely an unforgettable country. The people are so hospitable and kind and the game view is the best I have ever experienced.

The two experiences I have had to Southern Africa in the last six months have made me incredibly excited about helping my clients plan their dream safari experience. I would love to talk about assisting you in your African travel dreams! Contact me or any of our Black Pearl Luxury Services team members for your customized trip to Africa.
